BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-454, STN 50-455, STN 50-456, STN 50-457]

Commonwealth Edison Co.; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. NPF-37 and NPF-66, issued to Commonwealth Edison Company (ComEd, the licensee) for operation of Byron Station, Units 1 and 2, located in Ogle County, Illinois and Facility Operating License Nos. NPF-72 and NPF-77, issued to ComEd for operation of Braidwood Station, Units 1 and 2, located in Will County, Illinois.

The proposed amendments present a full conversion from the current Technical Specifications (TS) to TS based on NUREG-1431, Revision 1, "Standard Technical Specifications—Westinghouse Plants," dated April 1995. NUREG-1431 has been developed through working groups composed of both NRC staff members and industry representatives and has been endorsed by the staff as part of an industry-wide initiative to standardize and improve TS. The December 13, 1996, application was supplemented by letters dated February 24, September 2, October 10, October 28 and December 8, 1997 and January 27, January 29, February 6, February 13, February 24, February 26, April 13, April 16, June 1, June 2, July 2, July 8, July 30, July 31, August 11, August 12, September 21, September 25, October 1, October 2, October 5 and October 15, 1998. As part of this submittal, ComEd has applied the criteria contained in the Commission's "Final Policy Statement on Technical Specification Improvements for Nuclear Power Reactors (final policy statement)," published in the **Federal Register** on July 22, 1993 (58 FR 39132), to the current Byron and Braidwood TSs and using NUREG-1431 as a basis, developed a proposed set of improved TSs for Byron and Braidwood. The criteria in the final policy statement were subsequently added to 10 CFR 50.36, "Technical Specifications," in a rule change which was published in the **Federal Register** on July 19, 1995 (60 FR 36953) and became effective on August 18, 1995.

The licensee has categorized the proposed changes to the existing TSs into five general groupings. These groupings are characterized as
